KBN & Partner recognized by Manage HR Europe as a Top Payroll Service Provider in Europe 2026

Fremont, CA – November 9, 2026 – KBN & Partner has been recognized by Manage HR Europe as a Top Payroll Service Provider in Europe 2026. This award highlights KBN & Partner's expertise in delivering comprehensive payroll and HR solutions, streamlining cross-border operations, improving administrative efficiency, and ensuring regulatory compliance for businesses operating internationally.

This recognition is determined through a bona fide editorial process based on the HR Services and Workforce Value Index and its defined methodology. It draws on independent editorial research, subscriber nominations and industry input, and highlights excellence in HR function alignment, execution across workforce and compliance environments, measurable impact on workforce outcomes and market confidence among HR leaders.

“We are pleased to recognise KBN & Partner as a Top Payroll Service Provider in Europe 2026.” said Alex Gonsalves, Managing Editor of Manage HR Europe. “The Denmark-based consultancy helps businesses streamline payroll, HR, and cross-border operations while ensuring efficiency and compliance.”

About KBN & Partner:

KBN & Partner ApS is a Denmark-based consultancy providing payroll, HR, accounting and CFO services, complemented by expertise in GDPR. Working as an extension of its clients’ teams, the firm combines professional expertise with practical support tailored to each organisation’s needs.

Its integrated approach connects payroll administration with HR processes, financial accounting and management reporting. From day-to-day operations to international payroll coordination, process improvement and system implementation, KBN & Partner helps businesses establish clear responsibilities, strengthen controls and make complex requirements easier to manage.

Founded by Klaus Bøje Nielsen and Louise Grønlund Dawall, the firm brings together complementary experience and a shared commitment to close client collaboration. Its guiding principle is simple: “Reduce Complexity. Keep it Simple.”
